WEB/WORDPRESS DEVELOPER , QA

PROFILE

- Computer Engineering student specializing in cybersecurity, with hands-on experience in web development, WordPress, and QA testing. I'm interested in securing real-world systems, reducing risk, and continuously improving my technical skills. Currently looking for an opportunity in the IT place where I can learn fast and contribute effectively.

WORK EXPERIENCE

Get Me Online

FEB - 2022 TO DEC - 2022

- Built websites using Elementor, WP Bakery, UX Builder, and more.
- Created staging sites, presented designs, and gathered client feedback effectively.
- Led client consultations to customize website layouts and design features.

Analyt Solutions

JAN - 2023 TO SEP - 2023

- Scheduled posts with detailed SEO keywords for pages and products.
- Developed custom themes using HTML, CSS, and visual page builders.
- Created dynamic, responsive layouts across desktop, tablet, and mobile views.
- Implemented security plugins, managed WooCommerce, user roles, and backups.
- Fixed sprint defects by debugging both front-end and back-end code.
- Designed and executed comprehensive test cases aligned with sprint goals.
- Conducted manual, functional, performance, and security testing on websites.
- Verified defect fixes through rigorous retesting throughout development cycles.
- Facilitated sprint planning, team collaboration, and clear cross-team communication.
- Coordinated IT strategies, ensuring timely delivery and flexible support hours.

Weblogysphare

SEP - 2023 TO DEC - 2024

- Led the project from development to deployment, including bug fixes, design, and responsiveness
